Deadline: August 18, 2017

Information Quality Services Center (IQSC)

IQSC Data User's Educational Event

HEALTHCARE DATA:

Descriptive, Predictive, Prescriptive

Deadline for abstracts: Aug. 18, 2017

Authors notified of acceptance/rejection: Sept. 22, 2017

Electronic file of final poster submitted: Oct. 20, 2017

Abstracts are being accepted for Poster Display and/or Oral Presentation for the First Annual DFWHC Foundation IQSC Educational Event. The event will be held at Texas Women's University in Dallas on November 16, 2017. **Abstracts received that do not follow guidelines will not be accepted.** Abstracts will be accepted online no later than 12:00 Midnight PT on Aug. 18, 2017. Authors will be notified of acceptance/rejection by Sept. 22, 2017.

ABSTRACT TOPICS

Abstract topics must be applicable to at least one of the following healthcare data analytic topics:

- **Storytelling;**
- **Visualization;**
- **Security;**
- **Data Quality;**
- **Using Public Reported Data.**

We are specifically interested in receiving abstracts highlighting the utilization of hospital discharge data (A.K.A. Claims Data) from the DFWHC Foundation Warehouse. This is not a requirement of the abstract.

ABSTRACT CONTENT

Submissions are accepted from professionals working in clinical and non-clinical, research and development, management, business and technology in the healthcare setting. In 300 words or less, provide an accurate, succinct and informative abstract that represents your submission and/or poster. All abstracts submitted must be typed, in English and well organized. Content should be written in complete sentences without abbreviations. References are not included in the abstract. The judging process is blinded and peer-reviewed. The following sections should be included in the abstract:

- **Background;**
- **Purpose;**
- **Project or Case Description;**
- **Methodology;**

- **Results;**
- **Conclusions.**

Submit abstracts to: tmendoza@dfwhcfoundation.org

ABSTRACT SELECTION PROCESS

All abstracts submitted are subjected to an objective, blinded peer review and are evaluated on quality of the project/research, content and relevance to healthcare analytics. All entries will be notified of selection or rejection by September 22 via email.

Guidelines for Poster and/or Oral Presentation will be provided at the time of notification if selected to present.
